

PET PANTRY GUIDELINES

The Michigan Humane Society is pleased to offer temporary support and assistance to Michigan pet owners in need. Here are some important considerations to keep in mind as you join our program!

- Our operations are based on the generous donations of others, therefore we cannot guarantee that food or supplies will always be available. Pet owners must be prepared to provide food and veterinary care for their pets at all times. When available, we provide free dry/wet dog/cat food, kitty litter and animal care supplies.
- Applicants must be at least 18 years of age.
- It is our goal to see all of the animals (under the age of 8) in our program sterilized (fixed). This service is provided at no charge to you.
- Once approved, you're eligible to return to the Pet Pantry every two weeks. You do not need to wait for your exact day. For example, if you come on a Wednesday, you could return on a Tuesday, approximately two weeks later.
- Please inform an MHS staff member if you have any changes to your name, phone number, address, alternate contacts, etc. so we can keep your records up to date.
- Please let us know if you add (or remove) animals from your household.
- Only one owner can be registered per animal (but alternate pick-up contacts can be added).
- Breeding or planning to breed your pet will result in immediate removal from the program.
- Participation in the Pet Pantry may be revoked for disruptive behavior including inappropriate language, violence or threat of violence, or hostile behavior towards MHS staff, volunteers, clients and affiliates.
- Registration and participation in the Pet Pantry Program may be revoked at the discretion of the Michigan Humane Society for any reason.
